

Hi {resident},

Thank you for sharing your feedback with us about our new amenity! We're truly excited to bring you something that will make your experience here at **[PROPERTY NAME]** even more enjoyable, saving you time and money on your tech services, too!

To make sure that everything goes smoothly for you, we've partnered with the wonderful amenity experts at Onboard. They are highly experienced in making transitions like this effortless and are ready to offer friendly, dedicated support anytime you need it—whether that's over the phone, through chat, or via email.

Here is a flyer from Onboard, which includes a special contact number just for you and your neighbors. Plus, check out our dedicated amenity page at the URL on the flyer for more details, to access the service, or to chat directly with an Onboard agent who's there to help.

I hope this makes things easier for you. Please don't hesitate to reach out to the Onboard team if you need anything at all.
